Subject: Response Website language

At approximately 10:20 am local time on March 17, 2019, Intercontinental Terminals Corporation (ITC) discovered a tank on fire and reported the incident to the National Response Center (NRC #1240304). EPA Region 6 Phone Duty Officer (PDO) activated the Response Duty Officer (RDO) and EPA START contractors to respond.

EPA mobilized and entered Unified Command with TCEQ, HCPCD, and ITC. USCG also mobilized and is providing support.

Predominant winds were from the east northeast from La Porte, Texas towards Hobby Airfield. Air monitoring conducted in the vicinity of the incident and downwind by Harris County, TCEQ, ITC, and EPA up until midnight has shown no significant detections. EPA and ITC are continuing air monitoring efforts throughout the night in the vicinity and downwind.

EPA conducted aerial air monitoring with the use of the ASPECT aircraft and measured no significant detections in the vicinity and downwind of the incident.

With Regards, Steve
